Cotuz

Name: Date:

Division with 2-Digit Divisors

Grade 5 · Ages 10-11 · Math · Arithmetic · ★★

Divide and write the quotient on the line. Where the question asks for the quotient and the remainder, write both, like 152 remainder 4. The remainder is always smaller than the divisor.

1. 3,337 ÷ 47 = _____

2. 3,922 ÷ 51 = ? (give the quotient and remainder)

_____

3. 2,923 ÷ 37 = _____

4. 2,168 ÷ 49 = ? (give the quotient and remainder)

_____

5. 1,242 ÷ 27 = _____

6. 4,307 ÷ 19 = ? (give the quotient and remainder)

_____

7. 2,371 ÷ 24 = ? (give the quotient and remainder)

_____

8. 1,575 ÷ 25 = _____

9. 5,022 ÷ 74 = ? (give the quotient and remainder)

_____

10. 6,970 ÷ 82 = _____

11. 9,270 ÷ 62 = ? (give the quotient and remainder)

_____

12. 8,092 ÷ 68 = _____

13. 9,561 ÷ 97 = ? (give the quotient and remainder)

_____

14. 7,192 ÷ 58 = _____

15. 7,656 ÷ 66 = _____

16. 9,752 ÷ 57 = ? (give the quotient and remainder)

_____

17. 5,795 ÷ 61 = _____

18. 8,876 ÷ 75 = ? (give the quotient and remainder)

_____

19. 6,076 ÷ 78 = ? (give the quotient and remainder)

_____

20. 8,455 ÷ 89 = _____

Cotuz

ANSWER KEY

Division with 2-Digit Divisors

Grade 5 · Ages 10-11 · Math · Arithmetic · ★★

1. 3,337 ÷ 47 = **71**

2. 3,922 ÷ 51 = ? (give the quotient and remainder)

Answer: 76 remainder 46

3. 2,923 ÷ 37 = **79**

4. 2,168 ÷ 49 = ? (give the quotient and remainder)

Answer: 44 remainder 12

5. 1,242 ÷ 27 = **46**

6. 4,307 ÷ 19 = ? (give the quotient and remainder)

Answer: 226 remainder 13

7. 2,371 ÷ 24 = ? (give the quotient and remainder)

Answer: 98 remainder 19

8. 1,575 ÷ 25 = **63**

9. 5,022 ÷ 74 = ? (give the quotient and remainder)

Answer: 67 remainder 64

10. 6,970 ÷ 82 = **85**

11. 9,270 ÷ 62 = ? (give the quotient and remainder)

Answer: 149 remainder 32

12. 8,092 ÷ 68 = **119**

13. 9,561 ÷ 97 = ? (give the quotient and remainder)

Answer: 98 remainder 55

14. 7,192 ÷ 58 = **124**

15. 7,656 ÷ 66 = **116**

16. 9,752 ÷ 57 = ? (give the quotient and remainder)

Answer: 171 remainder 5

17. 5,795 ÷ 61 = **95**

18. 8,876 ÷ 75 = ? (give the quotient and remainder)

Answer: 118 remainder 26

19. 6,076 ÷ 78 = ? (give the quotient and remainder)

Answer: 77 remainder 70

20. 8,455 ÷ 89 = **95**
