

Reading Comprehension: Fun Facts (Grade 3)

Grade 3 · Ages 8-9 · Reading · Reading Comprehension · ★★

Read the passage, then circle the best answer for each question.

Penguins are birds, but they cannot fly. Instead, they use their wings like flippers to swim through the ocean. Penguins are excellent swimmers and can dive deep underwater to catch fish and squid. They Many penguins live in cold places, like Antarctica. Penguins have thick, waterproof feathers that keep them warm and dry. They also huddle together in large groups to share body heat on cold, windy days. Baby penguins are called chicks. Parent penguins take turns keeping their eggs warm until the chicks hatch. Penguins are truly amazing birds!

1. What is the main idea of this passage?
 - (A) Antarctica is a very cold place to live.
 - (B) Penguins are the fastest animals in the ocean.
 - (C) Penguins are interesting birds with special abilities.
